

# Meaningful Places

We long for meaningful places that are peaceful and satisfying.

Some people write music about it,  
Some just want to be in this place.

It's not about just getting there and then returning to it;  
It's about getting there with others.  
And then staying there in that special community.

This is what C.S. Lewis called 'Narnia.'  
It's a place of love and peace.

Yet there are rules.  
This is why it's peaceful to the entire community.  
These rules, however, can't be kept perfectly,  
So, Jesus keeps them for me.  
And I follow Him .....close behind Him.

In this place, we all speak the same language;  
The language of the Kingdom of God.
